

INSTALL THE SHOWER YOU WANT

From low level to traditional height shower trays

0cm

SANIFLOOR® 1&2

REF: 1154 AND 1155

Dual action pump and shower wastes designed for wet rooms with tiled or vinyl flooring.

Designed specifically where floor drainage is required but where space underneath is very limited e.g. wet rooms. This two part kit with a powerful shower waste pump and a choice of two waste designs can pump up to 3m vertically as well as 30m horizontally. Higher flow rate means it can be used with powerful 'rain head' showers.

2cm

SANIFLOOR® 3

REF: 1156

Dual action pump and shower waste designed for low level trays.

Designed specifically where floor drainage is required but where space underneath is limited to 2cm. This two part kit comprising a powerful shower waste pump and shower waste can pump up to 3m vertically as well as 30m horizontally. Higher flow rate means it can be used with powerful 'rain head' showers.

5cm

TRAYMATIC® EXTERIOR

REF: PLEASE SEE SANIFLO BROCHURE FOR TRAY SIZES

Low level shower tray equipped with an external wastewater pump.

This low profile shower tray is equipped with an external wastewater pump, making it an ideal solution for installing a shower almost anywhere with minimal disruption, as no excavation is required. Tray height is only 53mm for easy access.

8cm

SANISHOWER® FLAT

REF: 1043/3

Waste water pump with shower gully and waste.

Ideal pumping solution for a low level shower tray. Capable of pumping a standard electric or gravity mixer shower. Two inlets mean a wash basin can be added too.

12cm

SANISHOWER® +

REF: 6043

Waste water pump for traditional shower trays.

The Sanishower + can be installed next to a shower tray with access for maintenance. Capable of pumping a standard electric or gravity mixer shower. Two inlets mean a wash basin can be added too.
