

Kinedo

Designed by the experts at

SANIFLO®

2018

In the humid environment of the bathroom, silicone will deteriorate and discolour without constant maintenance. With Kinedo cubicles silicone is redundant – the wall panels of the product are cleverly designed to fit snugly within the shower tray.

The precision involved with each cubicle's design allows water to simply run down the inside of the shower with no chance of escape. And as there is no need for tiling or grouting, your shower will stay looking as pristine as the day it was installed.

All Kinedo cubicles are treated with Cristal Plus; a permanent, anti-limescale coating that minimises the build-up of calcium deposits and dirt on glass, reducing the need to clean. This transparent chemical treatment is resistant to hot water and UV rays, encouraging water to run off the glass without leaving streaks or water marks.

Every one of our cubicles comes with a full two year guarantee, fully backed by Saniflo Ltd.

Rediscover the pleasure of showering

The bathroom has changed... it is not just an area of functionality, but a room of pleasure and relaxation.

We want the fittings to be stylish and original, modern and attractive. None more so than our shower – a place for calm reflection or vibrant invigoration. Behind every **Kinedo self-contained shower cubicle** there is the know-how, innovation, quality, excellence and reliability of the **Saniflo** brand, allowing you to focus solely on enjoying the showering experience.

Purity of lines and elegant fittings are important, but the essence of true design is in the detail. At Kinedo we pride ourselves on well-conceived products with **clever assembly and high quality materials**, where no silicone is needed and there is no requirement for tiles or grouting. Every last detail has been thought through.

The benefits and beauty of shower cubicles are often overlooked as many people misunderstand the benefits of cubicles over enclosures. Cubicles offer a swift and efficient showering solution for any shape or size of bathroom. In most cases, you can have a watertight space, complete with the shower, controls and doors **fitted and ready to enjoy in less than a day**.

Kinedo cubicles are designed, manufactured and tested in our own production plants in France. This means we have complete control over the process and we can **maintain the highest standards of quality and service**. All our products have a comprehensive **two year guarantee**.

We also ensure that all our glass panels and doors meet the European standard EN12150 for **toughened safety glass** and we supply our products **flat-packed** for ease of manoeuvrability.

Kinemagic Design

Sleek, opaque, white glass panels and a clear glass front with anodised finish means the Kinemagic Design is in a class of its own.

With a low height tray, thermostatic valve and range of sizes the Kinemagic Design can fit in most bathrooms. The clever construction of all the Kinemagic range enables it to be fitted in just one day with no mess or fuss and no re-tiling. Making our Kinemagic range one of most stylish, practical, versatile and most popular range of showers.

Kineprime Glass

Slotting a shower into an un-used space makes great sense and the Kineprime Glass is perfect for a recess or a corner and comes in a choice of sizes to suit most situations.

The glass back and side panels make for a quicker solution than tiles and grout and as Kineprime glass comes in both quadrant and corner versions, with a choice of pivot or sliding doors, this adaptable design can provide a stunning look in the smaller bathroom. Since a thermostatic shower is included, there is nothing else to add.

Main measurements

Overall shower and tray height is the same for all variants.

Kineprime Contract

This Kineprime gives a neat, effective solution when extra showering facilities are needed.

This attractive white framed cubicle combines stylish glass with practical plastic wall panels and is supplied with a thermostatic shower valve. However, the big advantage of the Kineprime Contract is that it is so easy and quick to install – it doesn't even require any tools at all to build the unit itself. With many extra size options now available, adjustable feet and both corner and recessed versions, this really is one of our most adaptable self-contained cubicles.

Kineduo

The Kineduo offers you the best of both worlds, packed full of practical features designed to make bathing and showering a pleasure.

With its simple step-in access using a hinged, toughened safety glass door, the Kineduo is equally appealing to able-bodied and less able users as it makes taking a bath or shower easy and trouble-free.

Available in a variety of sizes and fit options, the bath comes with a whole host of great features as standard... but what really makes Kineduo unique is the ability to customise its specification to suit your requirements.

The Kineduo easy access shower bath is constructed from fully encapsulated acrylic, making it extremely robust and long lasting. It features a unique adjustable feet system and is available in both right and left hand versions making it suitable for almost any bathroom and user.

As standard the Kineduo is supplied with a toughened safety glass door, a cushioned headrest and pop up plug. Then just add the optional extras you want to make this unique to your home. You can now achieve luxury and convenience at an affordable price with Kineduo.

White or black toughened safety glass

Kineduo

The Kineduo can replace any existing bath regardless of positioning within the bathroom. With optional extras such as the end glass shower panel you can position the shower where you want it, so you can still have a shower bath even if your bathroom has a window or is in the eaves.

With white or black glass bath panels, the Kineduo can fit into any colour scheme and really creates a premium feel whilst still being designed to be inclusive for all the family. With a selection of grab rails and a seat, the Kineduo can be tailored to your individual needs, without losing its style.

To design your ideal bath solution, speak to your local showroom or installer or call us directly to work out exactly what you need to create your perfect bathroom. Why not go on to the Kineduo website and use our configurator to help design your perfect Kineduo?

Comes as standard with toughened safety glass walk-in door with easy to open catch, cushioned headrest and pop up waste.

The image shows optional extras: magnetic shower head with 'T' bar, taps, waterfall filler, shower screen with hinged section including wall brace, end glass panel, fold down seat, front panel and one end panel (shown in white).

Sanidoor

The Sanidoor is a split shower door giving complete freedom of design and total accessibility.

With smart white profiles, the doors can all be individually hinged to enable ease of use and can be fitted in pairs or with a side panel as shown. Whether fitting to a shower tray or in a wet room, the Sanidoor is a great idea for those of us that need a little more space when getting in and out of the shower.

Easy grip handles

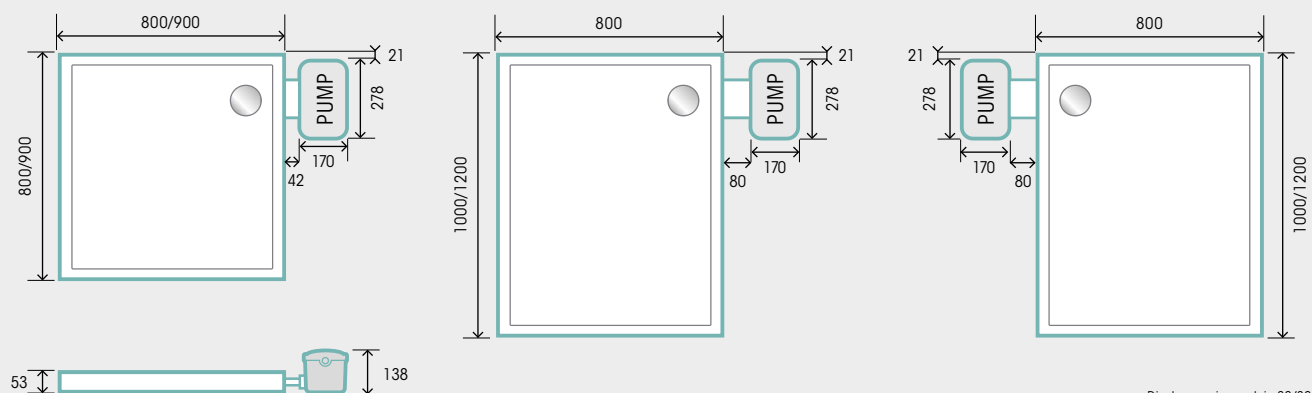

Traymatic

Install this low profile tray almost anywhere with negligible disruption as there is no need to excavate under the floor.

With a minimal tray height of 53mm, each Traymatic is ingeniously equipped with either an external or internal pump and the anti-slip tray surface comes as standard. The unit will pump shower waste water away up to 3m vertically and 30m horizontally or any lesser combination of both.

Sanimatic

The Sanimatic is designed to make life easier for anyone with limited mobility.

This ingenious toilet system gives the user adjustable height control to accommodate any accessibility requirements and includes remote flushing to remove the need to twist around.

- Easy to install – in as little as 2 hours for one person
- Compatible with most wall-hung bowls (not included)
- 370mm range of travel, even when seated, from a low of 380mm to a height of 750mm
- Allows easier sitting and standing
- Supports weights of up to 150kg
- Simple to use remote control panel, removes need to twist for flushing
- Stylish, neutral design integrates with bathroom décor
- Unit panel can be personalised: painted, framed or semi-recessed
- Optional armrests available
- Can be combined with a Sanipack Pro Up macerator
- Cistern holds 6L, push button flush or via remote control handset

Bath & Shower accessories

Comfort and safety, but with style.

With a selection of grab rails to choose from you can ensure your shower bath or shower cubicle offers the support your family needs but still gives your bathroom the premium look and feel you require for the rest of your family. Our grab rails are also suitable for use in all Kineduo and Kinemagic shower cubicles.

Ergonomics and Comfort

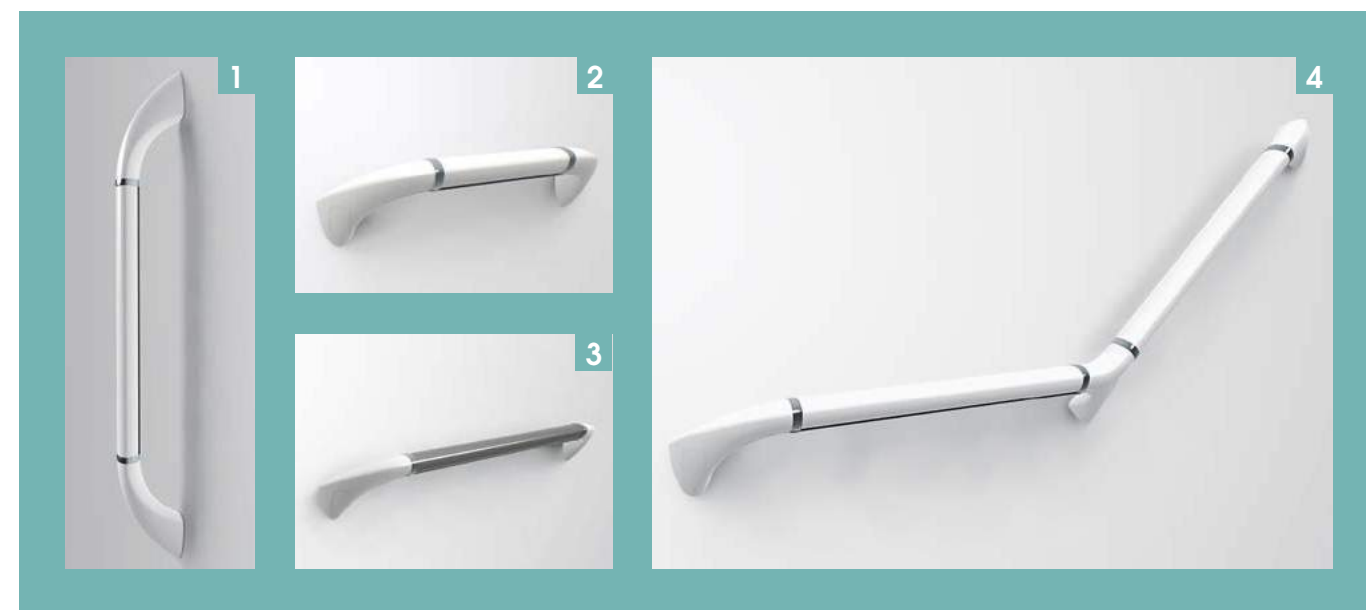

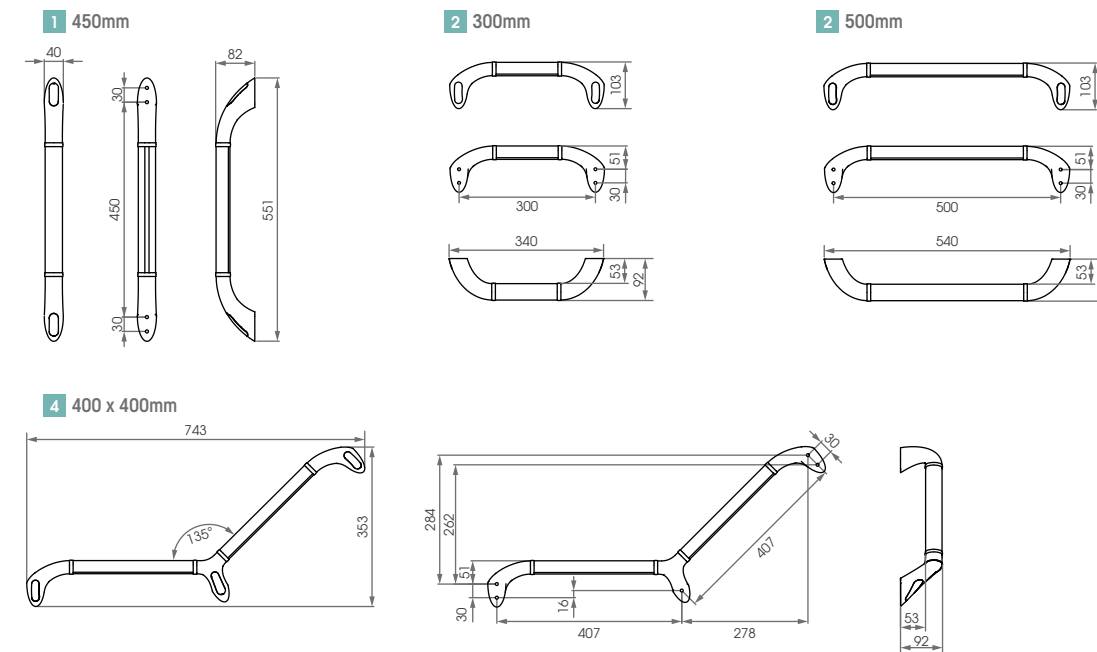

- Soft styling lines for comfort
- Non-cylindrical, elongated bar for better grip
- Anti-slip finish to prevent the wrist from turning
- 53 mm wall clearance for optimum grip without risk
- Pre-assembled or composite range

Safety and hygiene

- Load capacity 150 kg
- Installation with 2 screws per fixing point
- Aluminum bar
- Bacteriostatic outer coating

Aesthetics

- Non-cylindrical, elongated, profiled bar
- Two finishes for the bar: white or white and chrome
- Screw cap and junction rings for a perfect finish

Installation guide

Our Kinedo shower cubicles can be installed in less than a day, compared to a standard shower enclosure, which can take up to four days.

The step by step guide shown here clearly illustrates the ease with which a Kinedo cubicle can be assembled versus a conventional enclosure.

KINEDO CUBICLE INSTALLATION

00:00 hrs

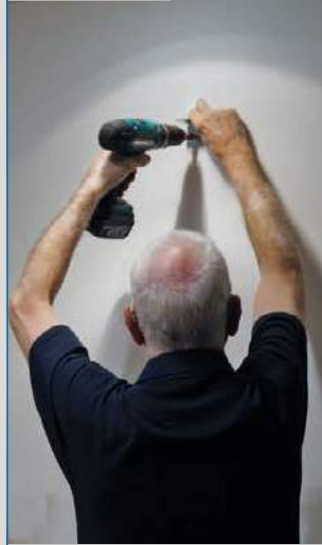

Make ready the area for the new shower unit by removing the previous installation.

00:30 hrs

Ensure floor area is level for the shower tray. Many of our trays have adjustable feet to help with levelling.

01:30 hrs

Mark up for wall panel brackets, drill and affix to wall. Fit the shower valve to the shower cubicle panel.

02:15 hrs

The interior cubicle panels slot into the grooves of the shower tray (this provides a leak free fitting). Fix using the bolts and washers to the frame and fixing bracket.

02:45 hrs

Next, fit the front panel and door(s) and then the seals.

03:45 hrs

And finally, fit the shower head, hose and handset in to place.

04:00 hrs

Your silicone free, grout free and leak free cubicle is now ready for use.

CONVENTIONAL ENCLOSURE INSTALLATION

DAY 1

Install the shower tray having checked that the floor is level, sound and solid. Walls may need to be skimmed with plaster to accept tiles.

DAY 1

Tile the walls and allow the adhesive to dry before undertaking the grouting.

DAY 2

Grout tiles and remove excess grout before buffing tiles.

DAY 2

Silicone seal the gap between the tray and the wall tiles.

DAY 3

Install the chosen shower.

DAY 3

Fit the enclosure wall profiles. Fit the side panel and door.

DAY 3

Silicone seal throughout. Once silicone has dried (usually 24 hours later)...

DAY 4

...the enclosure is ready to use.
